Student Council
Fall term 2020

Student Council Website

Statement of Purpose: The purpose of the Choate Rosemary Hall Student Council website would be for the Student Council to maintain a strong online presence and stay engaged with the Choate Community. Furthermore, as the world grows increasingly virtual, it is imperative that the council has an active, accessible, and up-to-date website. As representatives of the student body, we must remain connected to our peers and the greater school community, and the Student Council website allows us to do this during both on and off-campus periods.

Goals:

1. To increase transparency between the Council and Choate Community
2. To more frequently engage the Choate community
3. To facilitate the easy exchange of ideas between the Council and Student Body
4. To maintain a direct link between the council and the school community during times of remote learning and breaks on the academic calendar
